

2. Do you support federal and state legislation to ban abortion-on-demand from fertilization to birth?: YES, with exceptions (please explain)

Comment - Question 2: Appropriate and clearly defined medical issues, from at least 2 MD opinions. Which involve involve the life of the mother, and/or the fetus. I believe these decisions carefully considered, and should be relatively rare.

- a. Opposes the reversal of Roe v. Wade and Doe v. Bolton?: NO
- b. Supports abortion being funded, subsidized or otherwise promoted in government programs or education?: NO
- c. Opposes the legal definition of marriage as between one man and one woman?: NO
- d. Supports legislation allowing for the killing of human embryos used for scientific research?: NO
- e. Supports legislation allowing for the cloning of human beings?: NO
- f. Supports legislation allowing assisted suicide in Ohio?: NO

Comment - Question 3a: I support the opinions, from many conservative and liberal legal scholars, that Roe vs Wade was a contrived SCOTUS decision. The abortion matter should be delegated to individual states' legislatures. And, the citizens of each state can either directly and/or indirectly vote on proposed legislation via a referendum, or for individual representatives, come election time. Elections can have consequences on each side of this issue.

Comment - Question 3b: I believe there are many wealthy liberals who can support "women's health care". And, there are many wealthy conservatives who can support "pro life women's health care". Government support for health care should be limited to the prevention and treatment of adverse health situations. And, to those US citizens who do not have the means to pay for it. Illegal foreign nationals may receive appropriate health care prior to their departure from the USA

Comment - Question 3c: Same sex couples should be allowed to pursue "life, liberty, and the pursuit of happiness" via civil unions. And, the same protections given to each of us US citizens via the US Constitution.

Comment - Question 3d: I have a medical background. Discarded human embryos might be considered for medical research only if the proposed research is thoroughly vetted by the appropriate institutional medical review boards and ethics committees. And, only for diseases where all alternative sources for research tissue material has been tried and not found to be acceptable. A last resort to try and find cures for what are now "incurable" diseases.

Comment - Question 3e:

Comment - Question 3f: I believe there may be very specific situations where a difficult decision has to be made amongst a patient, family, clergy, and physicians to end a life in a defined manner. Such as disconnection from a life support system. These should be rare decisions.

4. List all organizations to which you have contributed time or money in the past four years.: I made most of my "modest" political donations directly to candidates and to attend specific fund raising events. Where I can meet the candidates. Most of my time, talent, and treasure is directed to initiatives sponsored by my church, Horizon Community Church, in Newown Village, OH.
