List your top two le.../:

Taking into account that I will not have the legislative ability at the township level to limit abortion, my other legislative priorities are:

- 1) Reigning in township taxes, fees and bureaucracy to make the township more business friendly so that entrepreneurs will want to start a business here without having to seek special tax deals with the township. Allow the free market to work and business will flourish.
- 2) Transparency, including bringing back Waycross Community Media so that township trustee meetings are passively available to anyone with a TV or computer. Waycross Community Media was paid for through the franchise fee (user fee) assessed on household cable TV bills and does not use any tax dollars. During the past 4 years, the board of trustees raised the contract franchise fee charged to subscribers the maximum % amount while they have

discontinued the televised meetings on cable. The township has taken away a user supported service yet continues to charge cable users for a service that subscribers no longer receive. Put the meetings back on cable TV; a lot more people will see the meetings and better relations with the community will result. However, beyond these two legislative priorities, I would make sure that any abortion provider or service who would want set up in our township (i.e. ambulatory surgical clinic) was in compliance with any applicable federal, state and local regulations. At that point, I would ask RTL for any available legal assistance or counsel that they could provide.

from the moment of fertilization, the baby human is a genetically unique individual that deserves protection.

recognized at all levels of government?:
