: 1) Improving our local educational system. Educators and parents must be included in and ultimately responsible for making choices for our children's education, not bureaucrats. In order to compete and attract a healthy private sector workforce, we must continue to embrace technology to modernize our educational system. Develop positive partnerships with our local educators to ensure that our children are prepared for college and given access to proper vocational training. By accomplishing this, we will be able to alleviate some of the issues that are causing a skills gap in the 51st District.

2) Strengthening our local Butler County economy. Sara is committed to keeping taxes low and keeping the government from spending frivolously. Over the past decades, the size of Ohio's government has become too large. It's time to cut spending and a create more efficient government.
